The above equity distribution was completed on June 2, 2023.

### (2) Adjustment situation

#### 1) Adjustment of exercise price for share options

According to the provisions of this Incentive Plan, if there are any matters such as dividend distribution, capital reserve conversion to share capital, distribution of stock dividends, stock split, allotment or reduction before exercise, the exercise price shall be adjusted accordingly.

Considering that the equity distribution of the Company for the year 2022 has been completed on June 2, 2023, and in accordance with the relevant provisions of this Incentive Plan and the authorization of the first extraordinary shareholders' meeting in 2022, the Board of Directors of the Company has adjusted the exercise price of the

2) The repurchase price adjustment of restricted shares

According to the provisions of this Incentive Plan

assessment indicators in the first exercise/release of restricted sales period and the fact that the incentive targets no longer qualify as the incentive targets due to resignation or retirement. The specific details are as follows:

According to relevant data in 2022 audit report of the Company issued by BDO China Shu Lun Pan Certified Public Accountants LLP, the Company's performance assessment indicators for the first exercise/release of restricted sales period did not meet the exercise/release of restricted sales conditions, mainly due to the year-on-year decrease in its operating revenue caused by the significant decline in the price of overall lithium industry in the electrolyte business and the operating revenue growth below expectations caused by the staged downward industry demand for the Company's polarizer business in the second half of 2022. Therefore, the Company proposes to cancel all share options/restricted shares in the first exercise/release of restricted sales period of all incentive targets that have been granted but have not yet been exercised/released of restricted sales. The repurchase price of restricted shares will be the sum of the price of RMB 13.76/share and the bank deposit interest in the same period.

2) Among the incentive targets of the restricted shares granted according to the Incentive Plan, 13 persons have resigned, 1 person has retired, and they no longer qualify as incentive targets. It is planned to repurchase and cancel all restricted shares granted but not yet released of restricted sales. The repurchase price of restricted shares for the resigned persons is RMB 13.46/share, and that of the retired persons will be the sum of price of RMB 13.46/share and the bank deposit interest in the same period.

In summary, the total number of share options to be cancelled this time is 12,436,200, among which the numbers of share options to be cancelled in the four exercise periods are 11,130,000, 5,400,435, 400,435, 400 and 435,400 respectively.
